

## Landing page test cases:

The screenshot shows a landing page with a search form. At the top is a text input field labeled "Search country or city" with a magnifying glass icon to its right. Below this is a grey modal box containing two radio buttons: "Country" and "City", with the text "\*Required, choose country or city" above them. Below the radio buttons is an optional field with a dropdown menu labeled "-- Filter By --" and a downward arrow. At the bottom of the modal box is a yellow button labeled "Search".

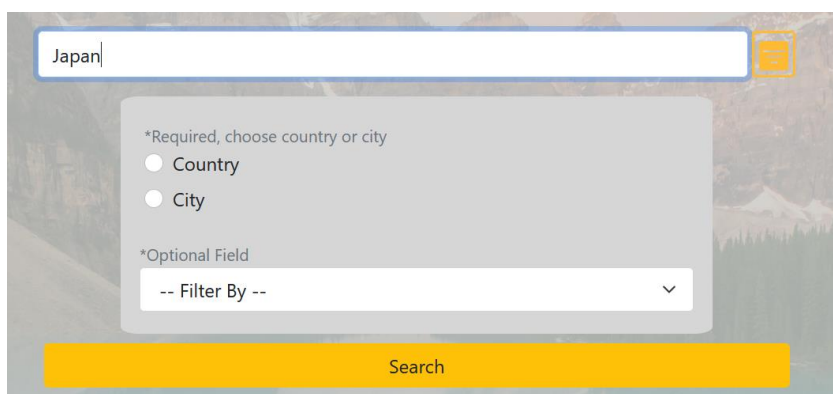

If there is a missing field from the required country/city field (Scenario 2) or clicking search without entering anything in the search field (Scenario 1), there will be an error message popup as seen in figure 3.

### Scenario 1

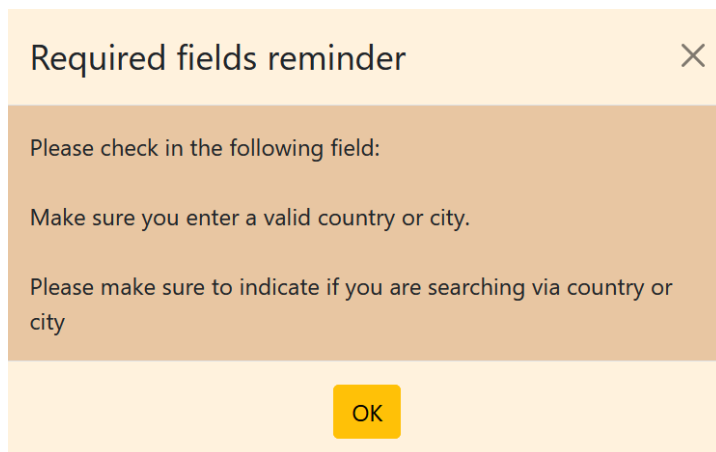

This screenshot shows the search form for Scenario 1. The "Country" radio button is selected, indicated by a blue dot. The "City" radio button is unselected, indicated by a grey dot. The optional field dropdown menu is still labeled "-- Filter By --". The yellow "Search" button is at the bottom.

### Scenario 2

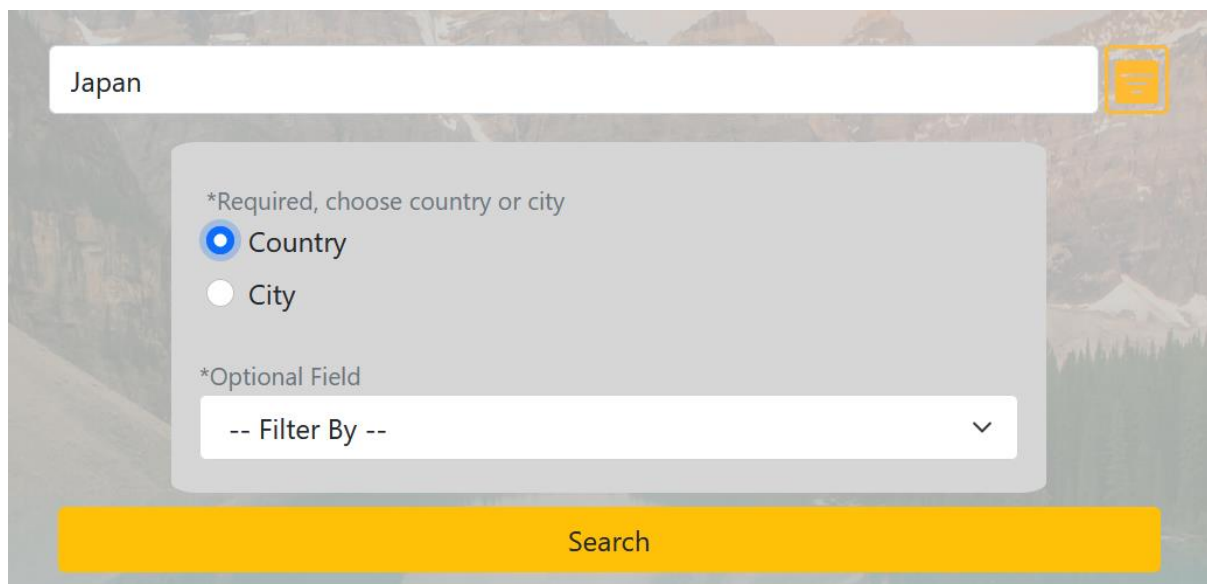

This screenshot shows the search form for Scenario 2. The text input field at the top now contains the word "Japan". The "Country" radio button is selected, and the "City" radio button is unselected. The optional field dropdown menu is still labeled "-- Filter By --". The yellow "Search" button is at the bottom.

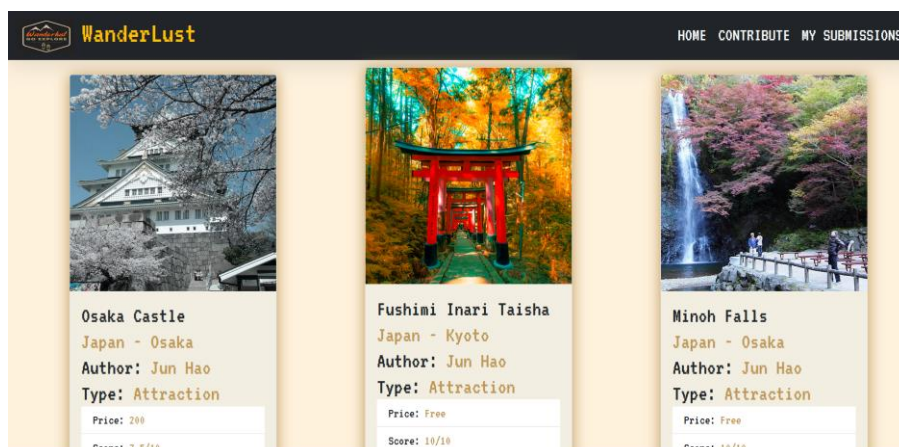

Figure 3.

To see listing, we have to search via country/city and select the appropriate country/city radio-button. The filtering is optional which allow users to filter the search results with a variety of options. (E.g., listings that are free, highly rated listings)

There are currently 3 listings under the country “Japan”

To test for “create”, click the “contribute” on the top right-hand corner of the navbar to get access to the following page below.

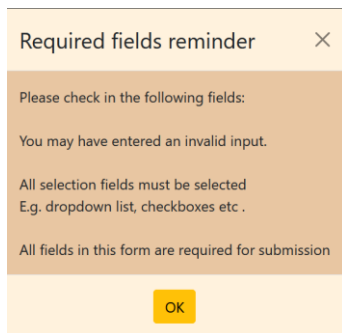

The table below is an example of inputs that could be entered into the form, alternatively, user can enter their own inputs and do not need to strictly follow the example given

Type	Check any of the radio buttons
Name of attraction	Testing3
Your Name	Jun Hao
Short description	This is a test
	This is a second test
	This is a third test
Country	Angola
City	Seoul
Email	<a href="mailto:Jun_hao_koh@hotmail.com">Jun_hao_koh@hotmail.com</a>
Share your experiences in a summary	This is a test experience
Price	34
Give this place a score out of 10	6
Rate this recommendation out of 5 stars	3
Check all tags	Minimum check 1

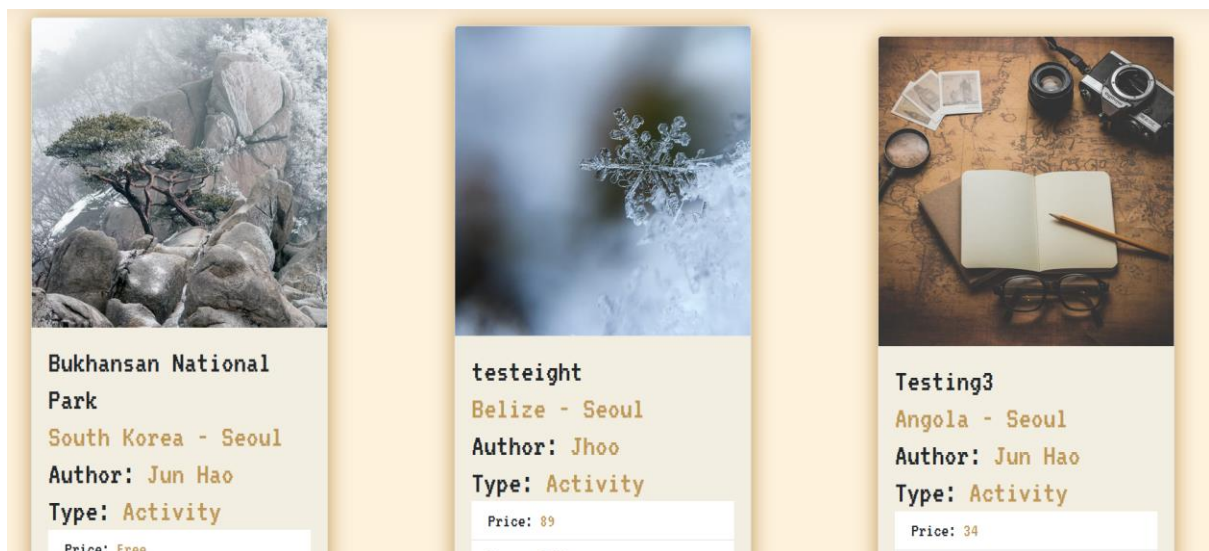

applicable to your sharing	
Paste picture URL link here	<a href="https://images.unsplash.com/photo-1452421822248-d4c2b47f0c81?ixlib=rb-1.2.1&amp;ixid=MnwxMjA3fDB8MHxwaG90by1wYWdlfHx8fGVufDB8fHx8&amp;auto=format&amp;fit=crop&amp;w=1074&amp;q=80">https://images.unsplash.com/photo-1452421822248-d4c2b47f0c81?ixlib=rb-1.2.1&amp;ixid=MnwxMjA3fDB8MHxwaG90by1wYWdlfHx8fGVufDB8fHx8&amp;auto=format&amp;fit=crop&amp;w=1074&amp;q=80</a>

To test for validation, simply omit or type something differently for the inputs above.

An error message like this will be triggered:

If submitted correctly, it will lead to the listing page which shows other listings with the same city as shown below:

As we can see Testing3 is the new listing created with the example above.

To test for update and delete, click on my submissions on the top right-hand corner again which will lead to a login page:

Clicking on update will lead users to a similar form as the one used for create but with most of the fields populated already. Using “testing3” as example, this is as seen below:

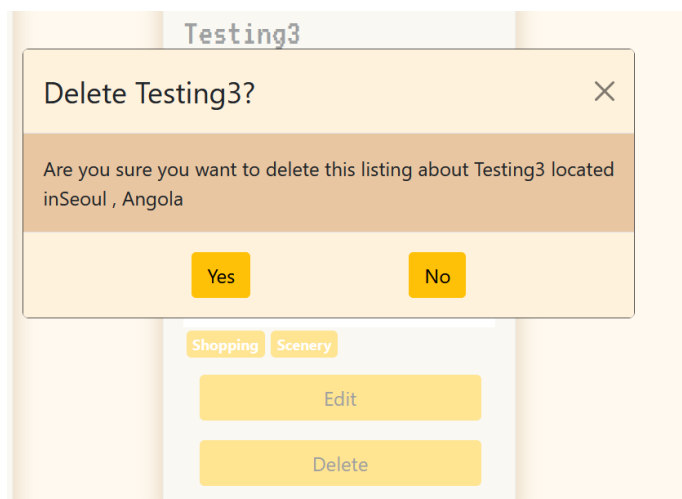

The screenshot shows a dark-themed form for updating a listing. At the top, there are two radio buttons: 'Food' (unselected) and 'Activity' (selected). Below this is a label 'Enter the name of attraction' followed by a text input field containing 'Testing3'. A red error message 'Required field' is visible below the input. Next is a label 'Your Name' followed by a text input field containing 'Jun Hao'. A red error message 'Required field and only uppercase/lowercase alphabets' is visible below the input. At the bottom, there is a label 'Short description of your recommendation' followed by three text input fields containing 'this is a test', 'this is a second test', and 'this is a third test'.

The form will validate like the create part as mentioned above. Any missing or invalid field will also trigger an error message similar to the one seen in the create section.

To go back to the submission page to do delete, we need to re-login using [jun\\_hao\\_koh@hotmail.com](mailto:jun_hao_koh@hotmail.com) via the “my submission” link on the top right of the navbar.

Once in the listing page, trying to delete “Testing 3” will yield the following message:

The screenshot shows a light-colored background with a modal dialog box in the center. The dialog has a title bar with 'Delete Testing3?' and a close button (X). The main text inside the dialog asks 'Are you sure you want to delete this listing about Testing3 located inSeoul , Angola'. At the bottom of the dialog are two buttons: 'Yes' and 'No'. In the background, partially obscured by the dialog, is a listing card for 'Testing3' with tabs for 'Shopping' and 'Scenery', and buttons for 'Edit' and 'Delete'.

Clicking “No” allows user to stay on the same page and clicking “yes” will delete the listing and redirect users to the main landing page.
